Re: Bid#6027

*S-93-04-26*

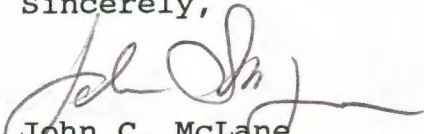

Hurst Technical Services was the only firm that returned a bid to the Purchasing Department. This firm has always been most professional and capable of servicing our need on a basis of daily or emergency response.

We need a firm like Hurst Technical Services to support and service the Three Rivers Filtration Plant for the utilizing of their expertise. Hurst has in the past proven themselves at this facility whereas others have not. The firm would service and install various electronic and pneumatic instruments to measure and monitor the operation of various equipment and components at this facility that need and require this ability to maintain operation. This firm will furnish competent personnel, tools, test equipment and the ability to service all instruments and equipment at their disposal.

Without this maintenance on instrumentation this facility could be void of any competent personnel to service various meters, instruments and electronic gadgetry to allow a smoother operation of repair and functioning of the treatment of water and dispersal of same. The possibility of mistreatment or overtreatment of water due to malfunctioning of electronic instrumentation could be quite costly to the City as well as eminent danger to the quantity and quality of the supply of water to the citizens of Fort Wayne.

Hurst Technical Services has been most beneficial in the past and hopefully will be in the future.

Sincerely,

  
John C. McLane
